Meme

From Wikipedia, the free encyclopedia

This article is about the term "meme" in general. For the usage of the term on the internet (or a fad that spreads quickly), see [Internet meme](#). For other uses, see [Meme \(disambiguation\)](#).

A **meme** (/miːm/ *MEEM^{[1][2][3]}*) is an idea, behavior, or style that spreads from person to person within a culture—often with the aim of conveying a particular phenomenon, theme, or meaning represented by the meme.^[4] A meme acts as a unit for carrying cultural ideas, symbols, or practices, that can be transmitted from one mind to another through writing, speech, gestures, rituals, or other imitable phenomena with a mimicked theme. Supporters of the concept regard memes as cultural analogues to genes in that they self-replicate, mutate, and respond to selective pressures.^[5]

The word *meme* is a neologism coined by [Richard Dawkins](#).^[11] It originated from Dawkins' 1976 book *The Selfish Gene*. Dawkins's own position is somewhat ambiguous: he welcomed [N. K. Humphrey](#)'s suggestion that "memes should be considered as living structures, not just metaphorically"^[12] and proposed to regard memes as "physically residing in the brain".

**Does anyone in this list know why a clear blue sky is ALWAYS blue – day or night?
Is this not true? Is black a color?**

If you don't know that basic shit of an answer – go away to find why the clear blue sky is ALWAYS AND 100% FOREVER BLUE!

What shade of blue? Different... why? FUCKED UP HUMANS!

Is this not true? Is black a color?

Colors are where the universe lies. Black or white are no colors. They are the extremes of NONE and ALL. NONE and ALL. NONE and ALL.

Blow the winds and the rains of why the clear blue sky is always forever blue. Always... fucked up humans... fucked up humans. Will it always be forever blue? Do you know the way to say YES it will or NO it will not?

or

Should the the clear blue sky actually become black? Will it become black? No it can't be black. We are never never ever going to black. Black can't be in this space now. Black is NONE. White is ALL. Where is the difference? Everything is always BLACK before it can be WHITE for something was at one time NOTHING, right?

NAH.. that's is not the answer I believe. I believe the universe was NEVER black before it became white... For ALL is ALWAYS ALL and has ALWAYS been ALL for whatever time of infinite time that ALL is. WE ARE ALL. We in the mindway now. Mindway makes the fucked up Humans turn the clear blue sky all of its many shades of blue. Blue... What's the transitions that made difference in blue as it was then, blue in that next few time of difference it needed to become a new blue? New blue... what is that name... NEW? New what... New understanding that the shade of blue is always changing and never the same blue as it was in it's most infinite ways it can be blue. Blue is blue is blue... BLUE BLOW BLOW BLOW AWAY the blue of fucked up humans.

Fucked up humans make the blue sky blue grey. Now is there a new color here? No grey is not color still again. Any mix of BLACK (none) and WHITE (all) is a shade of GREY (some). Some things are just best be grey. Never BLACK! ALWAYS WHITE and why is WHITE the only true way to be RIGHT? For knowing it ALL is knowing that ALL is the RIGHT way and NONE is the WRONG way and GREY is struggling to find the RIGHT WAY. Turn the directions of change to the WHITE ALWAYS WAY and NEVER go into the BLACK NONE WAY. (NOWAY). No way shall we go to the BLACK NONE WAY. NONE WAY NONE WAY NO WAY.

Why is this always NO WAY? ALWAYS SHOULD BE SOMEWAY. Someway there is an answer that lies as the truth. TRUTH is ALWAYS there. ALWAYS is White. Truth is white. Justice is GREY. and the AMERICAN WAY is the human fucked up way. Can we now go the right way? End of this WAY now.

It's a matter of BLUE GREYS ALWAYS which is the human fucked up way.

That's END.
